**Appriss once again ranks as one of the “Best Places to Work”
in Kentucky**

Company makes list fifth time in six years

Louisville, Ky. — Appriss, the technology company behind a host of products to serve and inform, has once again made the list of Best Places to Work in Kentucky 2011. The awards program, created in 2005, is a project of the Kentucky Chamber of Commerce, Kentucky SHRM Council and Best Companies Group.

The statewide survey and awards program identifies, recognizes, and honors the best places of employment in the state, benefiting the economy, its workforce and businesses. The list is made up of 65 companies.

“Appriss is a great technology company with innovative ideas and services to help keep the public informed. But Appriss also has a unique culture that continues to attract individuals who like to work in an environment that promotes a positive workplace,” said Rick Cartor, Appriss vice president of Human Resources. “We regularly seek input from our employees to look for new ways to make this the best place any of us has ever worked.”

Nominated companies are evaluated by their workplace policies, practices, and demographics. In addition, employees are surveyed on their working experience. Best Companies Group manages the overall registration and survey process and analyzes the data to determine final rankings.

Appriss will be recognized and honored at the Best Places to Work in Kentucky 7th Annual Awards Dinner on Wednesday, April 20, 2011 in Lexington. Final rankings will be announced at the event. In the past, Appriss has ranked between sixth and eleventh on the company lists.

About Appriss

Appriss provides innovative technology solutions that serve and inform communities throughout the country. Our services include nationwide programs like VINE[®], a comprehensive automated victim notification service, OffenderNet, the largest real-time data network of incarcerated persons, and NPLEx[™] a national electronic tracking system used by tens of thousands of pharmacies and law enforcement investigators, to prevent the illegal sale of over-the-counter cold medicine containing pseudoephedrine.

Appriss also specializes in solutions that provide government agencies with innovative ways to manage and provide access to public information. These solutions include NE Crash, an electronic platform for managing auto accident information; and NE Web Portal, which allows the public to access public documents online.
